SAFETY WEEK

Complete details for staging "No Accident Week" January 20-26 inclusive, have been decided upon by the safety representatives of railroads in the Southern Region, according to announcement from the offices of the Railroad Administration today.

Mr. C. H. Anderson, Regional Supervisor of Safety has conferred with about thirty safety officials of the various lines, the meeting having been held in his office in the Healey Building.

It develops that the roads in this jurisdiction have in the aggregate, approximately two hundred and thirty thousand (230,000) employees and that each employee is going to be asked to individually do his utmost during a period of seven days to keep from being injured himself or being the cause of injuring a fellow employee.

Bulletins, rallies, moving picture exhibits, of an educational nature, personal appeals and many other forms of getting into close touch with all employees will be utilized and it is estimated that before January 19, there will be few if any railroad workers South of the Ohio or East of the Mississippi rivers who will not be "watching his step" and avoiding personal injury.

This movement, covering as it does a vast territory and affect-

ing an enormous population of high class industrial workers, is said to be causing unusual interest in every city and town in the South.

The "No Accident Week" was determined upon by Mr. E. L. Winchell, Regional Director of Railroads, who believes that the cause of safety among railroad men and the public generally may receive a material impetus as a result of it.

The humanitarian value of the plan of Regional Director E. L. Winchell to institute a "No Accident Week" among all railroad employees of the South commencing January 20 is strikingly shown by a report just compiled by the Regional Supervisor of Safety showing the extent to which railroad workers are killed or injured each month in the performance of their duties.

During the month of August, 1918, when the Railroad Administration had just organized the Safety Section in the interest of making safe the lives of the great army of railroad workers, approximately forty-five (45) employees were killed and two thousand one hundred (2,100) were injured on the railroads of the Southern Region. At the close of November, the latest month for which the figures are available, these fatalities had been reduced to approximately thirty one (31) killed and one thousand two hundred (1,200) injured. These figures include only employees and do not take into consideration the large number of trespassers killed and injured.

It is the purpose of the Safety Section of the Railroad Administration to demonstrate by "No Accident Week" that this great economic loss of life and service of industrial workers can be materially reduced and to this end

two hundred and thirty thousand (230,000) railroad employees in the South have taken the pledge to do their best to work these seven days without getting hurt themselves or being the cause of another's injury.

This plan was tried out by the Central of Georgia Railroad in December with such signal success that Regional Director Winchell decided to extend "No Accident Week" to all railroads under Federal control in the South. The psychological effect on the railroad workers, it is believed will give great impetus to the movement and thereby benefit the railroad service and the public.

By the afternoon of January 19, approximately two hundred and thirty thousand (230,000) railroad men South of the Ohio and East of the Mississippi rivers will have signed a pledge to go seven days, if possible, without sustaining a personal injury.

The week beginning January 20 has been designated by the Regional Director of Railroads as "No Accident Week" and according to a statement issued today by C. M. Anderson, Regional Supervisor of Safety, Southern Region, the lines under his jurisdiction approximately total thirty six thousand (36,000) miles with two hundred and thirty thousand (230,000) men and women on the payrolls.

Back of this army of industrial workers, who have decided to eliminate personal injuries, are three hundred and fifty safety Committees, composed of both officers and employees working under regulations prescribed by the United States Railroad Administration.

According to the employees themselves, who are taking a keen interest in it, says Mr. Anderson, "No Accident Week" is bound to give a big impetus to their safety work. The test is something concrete—something which may attain definitely as a result of their efforts. This is causing rivalry among the roads and the men say that the psychological effect upon the rank and file of employees of being thus placed upon their mettle, together with the knowledge that even for a week, they may prevent actual suffering or grief to any number of employees or their families makes "No Accident Week" well worth while.

Daily reports will be compiled by telegraph of progress made on every railroad in the South so that every employee will be advised as to what is being accomplished.

The letter of Judge Bethurum published in these columns two weeks ago, has caused much comment. The article was very timely and we believe will result in much good toward wiping out the dastardly evil which has so imperiled our town and county so long. The whisky traffic is the worst evil the country has to face and the bootlegger is the hardest violator of the law to convict. He picks his man to sell to and once the sale is made it is the hardest problem yet, to extract from that man who buys, just where and from whom he made the purchase. When the jury is selected to try the case Dick, Tom or Harry, who are opposed to whisky and would convict, either manage to get excused from the jury or they are cut off by the attorneys in the case. The witness takes the stand and says he bought from so and so. The bootlegger takes the stand and says he did not sell. The judge instructs the jury according to law and the weakness of the law in such cases, gives the doubt to the defendant and he goes acquit. The Judge, the sheriff and prosecuting attorney, have each done his duty. The law has been followed to the letter so far as the court is concerned, the jury satisfied that they did their part, the bootlegger pleased with the great victory won and the public without stopping to consider the facts at once, place the blame upon the officer of officers of the law, that he is not doing his duty. The court can not do it all. Since Judge Bethurum's letter was published, we have heard repeatedly from people: "What is Cam Mullins doing?" In justice to Judge Mullins we want to say that he is trying to do his duty. Take the records of his courts; the number of men who have been brought before him for investigation, the number sent to jail and it is sufficient proof of what he is trying to do. The officers can only do their part. The juries must do theirs and the people generally must do theirs. It is too big a proposition for two or three men's job.

JUDGE B. J. Bethurum has sent out a call to the citizens of his home county. He says that it is reported to him, on reliable authority, that conditions in this county are horrible, made so by the illegal sale of intoxicating liquors. Just so, Judge, just so! Wisely you have called upon the people and there is no question but what a great majority of them are with you in your fight against the bootleggers. It is said that at least thirty gallons of liquor are brought in here every night. That can be stopped by the united and determined efforts of our people, county and city officials. Go to work and when they are caught, give them the limit. The violators of the law test the officers at every step. They scent at once the official in sympathy and willing to wink his eye at their nefarious business. Now let the good citizens and officers of our county enthusiastically respond to Judge Bethurum's appeal and assemble on the first day of his Circuit Court in Mount Vernon and there and then begin a campaign for the complete annihilation of those who peddle this vile and corrupting stuff.

THE WIRZ PRECEDENT

An Associated Press dispatch from Paris says:

Leon Bourgeois, former Premier and French authority on the League of Nations, in a statement to the Matin cites as a precedent for the punishment of Germans of degrees convicted of violation of the laws of war the

case of Henry Wirz, who was tried by court martial and executed after the Civil War for cruelties suffered by Northern prisoners in the camp he commanded at Andersonville, Ga.

The Courier-Journal several months ago suggested that the Wirz case might well serve as a precedent for the punishment of individual Germans who transgressed the laws of war.

Capt. Henry Wirz was the commandant of the Andersonville prison camp. He was by birth German, but was regularly in the Confederate service. Nearly six months after the war ended he was tried for "violation of the laws of war" by a military commission, which pronounced him guilty of conspiring "maliciously, traitorously and in violation of the laws of war to impair and injure the health and to destroy the lives of large numbers of Federal prisoners, to wit, the number of about 45,000 soldiers in the military service of the United States held as prisoners of war at Andersonville, in the State of Georgia."

He was sentenced to death, the sentence bearing this indorsement: "The proceedings findings and sentence of the court in the within case are approved, and it is ordered that the sentence be carried into execution by the officer commanding the Department of Washington, on Friday, the 10th day of November, 1865, between the hours of 6 o'clock a. m. and 12 o'clock noon. Andrew Johnson, President."

On the date name Capt. Wirz was hanged in the Old Capital Prison at Washington.

Confederate historians resent this action as unjustifiable, insisting that the hardships suffered by the prisoners at Andersonville were due to the refusal of the Federal authorities to exchange prisoners, not withstanding the repeated efforts of the Confederates to relieve their crowded prison by arranging exchanges.

The justice of the sentence, however, has no bearing on the value of the case as a precedent. Plainly it indicates a way by which the perpetrators of many German outrages may be properly punished after peace has been proclaimed. The murderers of Capt. Fryatt, for instance, the assassins of the innocent on board the Lusitania, the Leinster, the Hiram, Maru the Ancona, etc., with the brutal violators of the laws of war in countless other cases, may be reached and dealt with by this method.

The French are insistent in their demands that such culprits shall be punished. The British have preserved long lists of them against the day of judgment. The peace terms should require the facilitation by the vanquished of the efforts to identify the guilty in cases where identification may be difficult. Once for all the German idea that all's fair in war must be dispelled. —Courier Journal.

The residence of W. K. Shugars, brother of the Misses Shugars, of this city, was destroyed by fire on his farm a mile out of Liberty, Casey county, early Monday morning, with a loss of from \$5,000 to \$6,000 as he carried no insurance of any sort. Mr. Shugars is in Richmond with his sisters, and says that all he saved from the building was the suit of corduroy working clothes that he had on.

Mrs. Shugars was in Richmond at the time. Mr. Shugars went to the barn at 6:30 Monday morning to milk, and while he was away the house caught fire. He thinks that a broken stove pipe caused the fire to catch in the roof. When he noticed the blaze it had gained considerable headway. He rushed to it and endeavored to save some clothes, but was almost suffocated and had to get out quickly to save his life. He then had to stand by impatiently, and see his home all furniture and all the family's wearing apparel go up in flames. Mr. Shugars went to McKinney, where he obtained some clothes, and came on to Richmond with the bad news for his wife. The home had been refitted by Mr. and Mrs. Shugars a few weeks ago when they moved to the farm, after he sold out his drug store in Stanford. —Richmond Post-Dispatch.

Mr. Shugars was in the drug business in Brodhead for a number of years.

The Immortals—

Theodore Roosevelt
(Printed by request of Judge Cam Mullins)

January 6, 1919

Dead! from the Sierras' snowy peaks
To wintry woods of Maine,
Ten thousand wires from sea to sea
Relayed the sad refrain.

By wireless and through ocean's depths
The news of sorrow spread,
"The strong man of America,
Our Roosevelt is dead."

Full was the life that gently passed
When over Oyster Bay
The clouds of morning turned to wings
Of gold against the gray.

Green are the laurels that we bind
About his quiet brow,
And bitter is the grief we feel,
For who will lead us now?

In homes of rich and poor alike
His pictured face is shrined,
For he was true to every trust
And kin to all mankind.

As statesmen, author, soldier brave,
And patriot to the end,
We mourn for him, and more than all
We mourn him as a friend.

Upon Columbia's starry height
Three great immortals stand,
Washington, Lincoln, Roosevelt,
At Liberty's right hand.

Their glory is a beacon to
The footsteps of the free,
Their names a splendor in the skies
For all eternity.

OLD AGE STARTS

WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs clean and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haasium Oil has been relieving the weakness and disability due to old age. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haasium Oil is indicated in all cases of old age, such as indigestion, constipation, loss of vitality, etc. It is a standard old-time home remedy and needs no introduction. Men's \$4.00 gun metal lace shoes for \$2.68 at Drummond's store.

W. H. Jones was appointed and qualified Wednesday as administrator of the estate of Robt Nixon deceased.

Earnest Dotson, son of J. R. Dotson, of Wildie and Miss Jalia Cummins, daughter of Mr. and Mrs. Mat Cummins were married Wednesday at the home of Rev. H. T. Young, who officiated. This is a splendid young couple and we join with their friends in congratulations.

Mr. Charlie L. Tuggle, of Mansfield, Illinois, and Mrs. Lula Bray Cress, of near Mt. Vernon were quietly married at the home of Mr. and Mrs. C. W. Daily, the latter's sister on Monday, Jan. 20, at six o'clock by Rev. Green Fish. Private Tuggle has been in training camps for the last seven months and has recently been discharged. They will reside near Mt. Vernon. Their many friends join in wishing them a long and happy life. This is a splendid young couple and the people of Mt. Vernon will be glad to have them reside here.

BRIDGE.—W. T. Hicks and H. H. Wood, two of the biggest tax payers in the county and two of the best and most progressive farmers and business men of the East side, are very much interested in getting a bridge across Clear Creek, near the L. T. Stewart farm and in getting the road out of the creek for a distance of several miles. This road is main thoroughfare leading from Wildie up to Disputanta, Climax and the East side of the County. During the wet weather season it is impossible to get up and down this creek a large part of the time and these men are willing to stand a goodly portion of the cost of the road, if the change can be made and county furnish a bridge. Too many people are made to suffer as the result of the horrible condition of this road, which is right along the creek bed and lots of times this creek is past fording. These people are entitled to some relief and it is to be hoped that the Fiscal Court, which meets the last day of this month will take some action to get that road out of the creek and supply a bridge which is so badly needed.

Lost.—An open face gold case watch, Elgin movement. In the back the words "Mother to Herbert" are engraved. Return to H. T. Young, Mt. Vernon, and receive reward.

A. G. Ball has bought the stock of goods of A. T. Furnish at Orlando. Mr. Furnish bought the stock from Mr. Ball last summer when the latter was called into service.

Bryant Bros. have closed the deal so we understand, for the lot between the picture show house and C. C. Williams' residence and will begin soon the erection of a two story brick building to be used as a garage.

Robert Nixon, a well to do farmer of the Brindle Ridge section died last Monday after an illness of pneumonia of only a few days. The deceased had been up from the flu only a short time and less than two weeks ago, he went to Richmond and was in the rain a good portion of the day. On his return home that night he began feeling badly and gradually grew worse until the end came.

The Stock Pens are being pushed and with two more weeks like the past two, will almost be completed. The building is 140 x 80 feet; has between 40 and 50 pens, two large drive ways and room above for all the feed or anything else the company will likely ever have money to buy. Farmers are coming in every day, some wanting stock others just to see how the work is progressing. People who have never given the question a thought, do not realize what such an enterprise means to the county.

FAIR MEETING.

The Mt. Vernon Fair Association met at the Court House at a regular stated meeting and a goodly number present. After several talks and suggestions by the members present the following officers and directors were elected. For Pres., W. A. McKenzie, Vice-Pres., C. D. Sutton, Secy-Treas. Chas C. Davis. The directors are as follows: J. W. Parsons, Wm. Bullock, Tom Kirby, T. J. Nicelev, Dr. M. Pennington, Wm. Poynter, David Hy-singer, F. L. Durham and E. S. Albright. Aug. 6-7-8-1919 are the dates set for the big Mt. Vernon Fair. We are planning to give special premiums and attention to registered hogs, sheep and cattle and assist in every way possible to place our stock raising on higher ground.

The case of Boyd Kelly, of Harlan county, charged with murder, will by change of venue be brought to Rockcastle county for trial and will no doubt be called at the coming February term. Some four years ago according to reports given out at that time, and since verified by disinterested parties, that Kelly with a posse of men ordered to do so by Judge John A. Ward, then County Judge of Harlan, went to Coxton where serious trouble existed between the Lick Branch Coal Co., and the miners. In a general fight between the miners and men sent out by the County Judge, two of the miners were killed and others wounded. Kelly is charged with doing the shooting. The change of venue was granted because Harlan is largely union and the claim is made that a jury of non interested men in the case would be almost impossible to get. Kelly is a large holder of coal interests in Harlan and has a strong backing by many of the influential men of that county. The prosecution has equally as strong a backing and the case no doubt will be a hard fought one.

The annual officers' banquet of the Masonic Lodge, was held last evening in the lodge rooms. The lunch was prepared by the Willing Workers and it is unnecessary to say that it was O.K. There were about sixty present. There was also a public installation of officers, the newly elected being R. H. Miller, Master; F. L. Durham, Senior Warden, and C. D. Sutton, Junior Warden.

Steve Price received a message yesterday that his son, Russel, a member of the Marines and one of the first of the Rockcastle boys to go across, was wounded on June 18, captured by the Germans and later died in a German hospital.

COUNCIL OF NATIONAL DEFENSE

There is a meeting called for the Court House at 1 p. m., on Monday, February 3rd, this being the first day of Circuit Court. A meeting just like this was never before held in the county. The intention is to get an expression of public opinion; find what the

sentiment of the citizens is regarding bootlegging. More whisky is being sold in the county now, if rumors are true, than has been for many years.

The people should come together in a mass meeting and discuss means whereby we can stop this state of affairs. It has been the habit of the citizens who oppose the liquor traffic to criticize the courts, and say that they should stop it, and that the courts are not sincere in their expressed desire to eradicate this terrible evil, and at the same time Mr. Citizen sits quietly by not lending the Court the least bit of assistance, and expecting some one else to report the offenders, while he, himself, does not wish to run the risk of incurring the ill will of the law breakers.

The time has come when people must take a stand on this question. If the Court House is not full, and people do not show which side they stand for, then we will know it is the fault of the citizens, and their willingness to

endure present conditions, but on the other hand, if the Court House is filled to overflowing with citizens determined to uphold the law, the question will then be solved, and we will know that bootlegging cannot survive in Rockcastle County.

Kentucky = The Home of Attractive Women

Looking their Best all the Time is the Chief Business of the Blue Grass Belles.

The Secret of Their Beauty

It is health, robust health, that is responsible for the Kentucky girl's good looks. If she gets sick, she proceeds to get well. Possessed of health, she knows that personal charm and attractiveness need not worry. They are hers. That is the secret.

The story of Mrs. Hattie Hamilton, 317 Myrtle Avenue, London, Kentucky, is typical. She says: "I have never in all my life, until recently, weighed over 100 pounds. Finally, I began to take Peruna. My weight now is 125. While I didn't really need it, I have started on the third bottle. Peruna has certainly done me a great deal of good and I recommend it to my friends. Several are taking it."

It is surprising the amount of dependence placed by women everywhere upon Dr. Hartman's World Famous Peruna. For forty-five years it has been a household name for women. The book is true and may help you. Ask your dealer for a Peruna Standard.
